

GO GREEN! Landscape Supply

A Tim Lopes Company

2011 Product Prices and Descriptions

Prices valid through Dec 31, 2011

Mulches

		Price Per 3-4 Yards	Price Per 5-9 Yards	Price Per 10+ Yards
Dark Organic	This is our absolute best seller! Dark brown in color, 100% natural and ground to a really fine consistency. This is the best mulch for fortifying your garden with Mother Nature's nutrients. Made with love at our Scituate location.	\$38/yard	\$35/yard	\$33/yard
Pine Bark	This hearty mulch is made up of 100% natural ground-up bark. It has a medium brown color with a great pine scent. Imported from New Hampshire.	\$43/yard	\$41/yard	\$39/yard
Jet Black	This dark mulch is our #2 best seller, but is getting more and more popular every year! It is dyed with non-toxic colorant and is animal-, plant- and child-safe. It has a little bit more of a chippy consistency than the pine and dark organic. Made in Scituate and imported (because we can't keep up with demand!).	\$43/yard	\$41/yard	\$39/yard
Hemlock Blend	This mulch is a blend of soft woods from New Hampshire with an amazing Hemlock scent. It's reddish-brown in color and used in many commercial mulch settings.	\$47/yard	\$44/yard	\$42/yard
Playground Chips	These are very clean and soft wood chips, perfect for use under swing sets for tender little feet or as a mulch to make wooded areas much more attractive.	\$35/yard	\$33/yard	\$31/yard
Natural Wood Chips	These wood chips come right out of the chipper! Much more of a rough texture than the playground chips, but great and inexpensive ground cover.	\$25/yard	\$23/yard	\$21/yard

Soil Amendments

		Price Per 3-4 Yards	Price Per 5-15 Yards	Price Per 10+ Yards
Super Loam	This is a perfect soil booster! Our loam is screened with a 1/2-inch screen and mixed with compost to give your gardens and lawns the perfect mix of moisture-holding organic material and growing loam.	\$33/yard	\$28/yard	\$24/yard
Earl's Organic Compost	This is our 100% natural compost made from composted leaves and vegetable matter. Lots of earthworms too help make it the best compost in Massachusetts!	\$43/yard	\$41/yard	\$33/yard
Horse Manure	This is another great soil booster and the secret to a great tomato garden. All our manure has been aged at least 6 months and is all from local farms!	\$25/yard	\$23/yard	\$21/yard
Moo Poo	This is 100% organically composted cow manure.	\$49/yard	\$47/yard	\$43/yard

Stone Products

		Price Per 3-4 Yards	Price Per 5-9 Yards	Price Per 10+Yards
Stone Dust	Our stone dust is extra fine with a blue/gray color. You can use it for a base and in between bricks, cobbles and pavers. Also used for walkways.	\$41/yard	\$39/yard	\$37/yard
¾" Crushed Stone	The perfect stone for so many uses! Great for french drains and also extremely popular as driveway stone. Look around town and you will see it everywhere!	\$41/yard	\$39/yard	\$37/yard
Crusher Run	This is a 50/50 mix of crushed stone and stone dust and makes a perfect hard pack or dense grade! Use it to fix pot holes or as an underlayment for a patio.	\$41/yard	\$39/yard	\$37/yard
Masonry Sand	Our masonry sand is coarse enough for concrete mix and also fine enough for sandboxes.	\$41/yard	\$39/yard	\$37/yard

Cobblestones

		Pieces Per Pallet	Price
Regular	Our regular cobblestones measure 9x5x5, and can be used to edge flower gardens, grass areas, walks, patios, driveways, ponds and foundation plantings.	146	SOLD OUT
Jumbo	The jumbo cobblestones measure 10x7x4 and can be used for all the same things as the regular size, and is also commonly used to transition areas of the property where there is a grade change or as a building block to make pillars or wall caps.	105	SOLD OUT

Firewood

		Price per ½ Cord	Price per 1 Cord	Price per 2+ Cords
Traditional	This is the firewood that you had as a kid! 100% hardwood with the bark on it, cut to 16" and under. It's stored on an asphalt pad to keep it clean and well-seasoned.	Call for Pricing	Call for Pricing	Call for Pricing
Naked	This is firewood with the bark removed. It makes for a very clean product and less ash in the firebox after burned.	Call for Pricing	Call for Pricing	Call for Pricing
Kiln-Dried	The best firewood that there is! It's cooked in a kiln at 250 degrees for 48 hours, which takes out the moisture for super, super dry firewood. It's also bug-free so you can store it inside with confidence!	Call for Pricing	Call for Pricing	Call for Pricing
